# 19<sup>th</sup>. GERMAN SHEEP SHEEPING CHAMPIONSHIP

We would like to thank all the Associations listed for supporting the event.

# 19th German Sheep Shearing Championship from 15<sup>th</sup> to 17<sup>th</sup> August 2025 in Gölsdorf LK. Teltow Fläming in Brandenburg

We cordially invite you to the 19<sup>th</sup> German Sheep Shearing Championship. Approximately 50 sheep shearers from Germany and other participants from France, Spain, Scotland, Ireland, New Zealand, Norway, Austria, Switzerland, Australia, the Netherlands and the Czech Republic will take part in this international open championship.

Over 1,200 selected and prepared sheep will be sheared over the three days. With the machine in the three classes Junior, Intermediate and Senior. In addition, there will be competitions in hand shearing (blade) and wool handling as well as exciting country competitions for international teams. Judging and judging will be based on the international rules of British Wool.

The timing begins with the commentator's command and ends when the shearer stops the machine after the last sheep. Depending on the class and round, at least two, three or five animals will be sheared. In the finals, there will be up to 10 sheep per shearer.

The time required is converted into penalty points and added to the final total. But time is not everything, a much higher weight is given to the shearing technique (with the follow-throughs) and the final quality with cleanliness and injuries.

The fewer points a participant has at the end, the better the placement. The fastest time does not always win. In the junior class, time is even less weighted, here the quality of the shearing is what counts. Not only the shearers but also the rules and the judges who make the assessment on and behind the stage are therefore at international level at our championship.

The first and second place winners of the German championship will then also take part in the disciplines of shearing with the machine, blade and wool handling at the Sheep Shearing World Championship in February 2026 in Masterton, New Zealand.

## Provisional Program

### Friday 15.08.

01:00 p.m. start of the competitions

### Saturday 16.08.

09:00 a.m. semifinals, national competitions

20:00 p.m. shearers party
